

MATERIAL SAFETY DATA SHEET Prefere 6150

Chemical Name : Prefere 6150
Applications : Emulsion Polymer Isocyanate Adhesive
Supplier : Dynea (Shanghai) Co., Ltd.
Telephone : 86-21-63758722
Fax : 86-21-63758726

Components	Contents
Synthetic co-polymer emulsion	40-60%
Poly-vinyl alcohol	1-10%
Filler	20-35%
Surfactant	< 1%
Water	10-20%

Eyes Rinse the eye with plenty of water for at least 15 minutes. Seek medical attention.

Skin Rinse with plenty of water for least 15 minutes while removing contaminated clothing and shoes.

Extinguishing media Water spray, dry chemical, carbon dioxide, foam and water spray, alcohol foam.

Spill clean-up Methods :

General

Do not release or runoff to sewer. If large amount is involved, flush the area with water spray. Prevent the runoff from entering drains, sewers or streams.

Absorb

Absorb spill with vermiculite or other inert material and place in a container as chemical waste.

Handling Keep away from foodstuffs and drinks. Wash hands before breaks and at the end of work. Keep working clothes separate.

Tel: 0086-2163758722. Fax: 021-63758726

Storage Keep container tightly closed.
Avoid keeping at temperatures >50°C and <0°C.

Protective equipment Use gloves made of rubber or PVC.
Wear suitable protective clothing.

Other Protection Decontamination facilities such as eye bath and protective clothing appropriate for the risk exposure is recommended.

Appearance	: Liquid
Colour	: Milky white
Odour	: Musty
Density (25°C, g/cm³)	: 1.25 ± 0.05
Viscosity (25°C, cps)	: 7000-9000
Solubility in water	: Dispersible
pH (20°C)	: 7-8
Boiling Point	: 100°C

Stability :Stable

Hazardous Decomp. products No hazardous decomposition products when stored and handled correctly.

LD₅₀ oral, rat : Not established

LC₅₀ inhalation, rat : Not established

This material has not been tested for environmental effects.

Disposal methods :Incinerate. Discharge, treatment or disposal may be subject to local regulations.
